Subject: RE: EPA Completeness Determination on SRP Coronado Generating Station Part A Demonstration
Date: Tuesday, January 11, 2022 12:19:14 PM

Michelle,

Thank you so much to you and your team! Salt River Project greatly appreciates your thoughtful review and looks forward to the next steps for our Part B demonstration for Coronado Generating Station. Have a wonderful rest of your week.

Andrea Martinez

Hello,

Today, on January 11, 2022, the U.S. Environmental Protection Agency (EPA) issued a decision on your 40 C.F.R. § 257.71(d)(1) application. EPA reviewed the Part B application for an alternate liner demonstration you submitted in by November 30, 2020 or December 14, 2020, and determined that the application is complete. In accordance with 40 C.F.R. § 257.71(d)(1)(iii)(A), the deadline to cease receipt of waste for the CCR surface impoundment(s) the application covered is tolled until EPA issues a final decision on your demonstration. Attached is an official letter stating EPA's determination. The Agency will announce proposed determinations on the applications as expeditiously as possible.

For further information on the individual determinations, please see [the CCR Part B implementation web page](#).

For more information about the Part A and other CCR actions taken today, including notifying multiple facilities about compliance issues and laying out plans for future regulatory actions, please [read the Agency's press release](#).

If you have any questions, please contact Michelle Lloyd at Lloyd.Michelle@epa.gov or (202) 566-0560.
